

# Activities in Kung Krabaen Bay

---

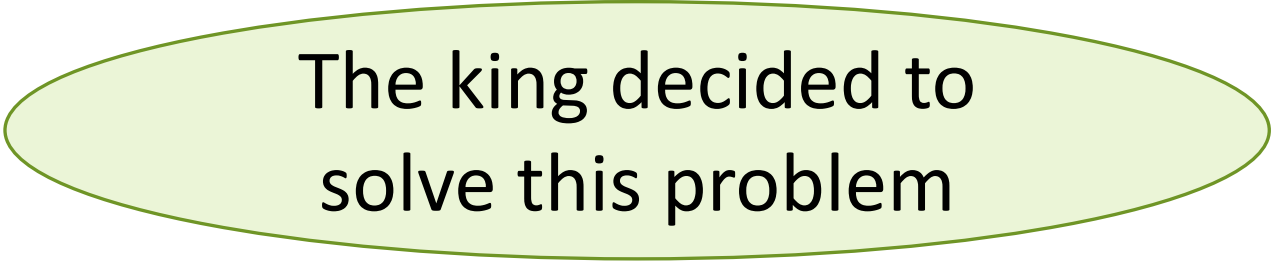

# Kung krabaen Bay Royal Development Study Center

---

Natural resources degradation

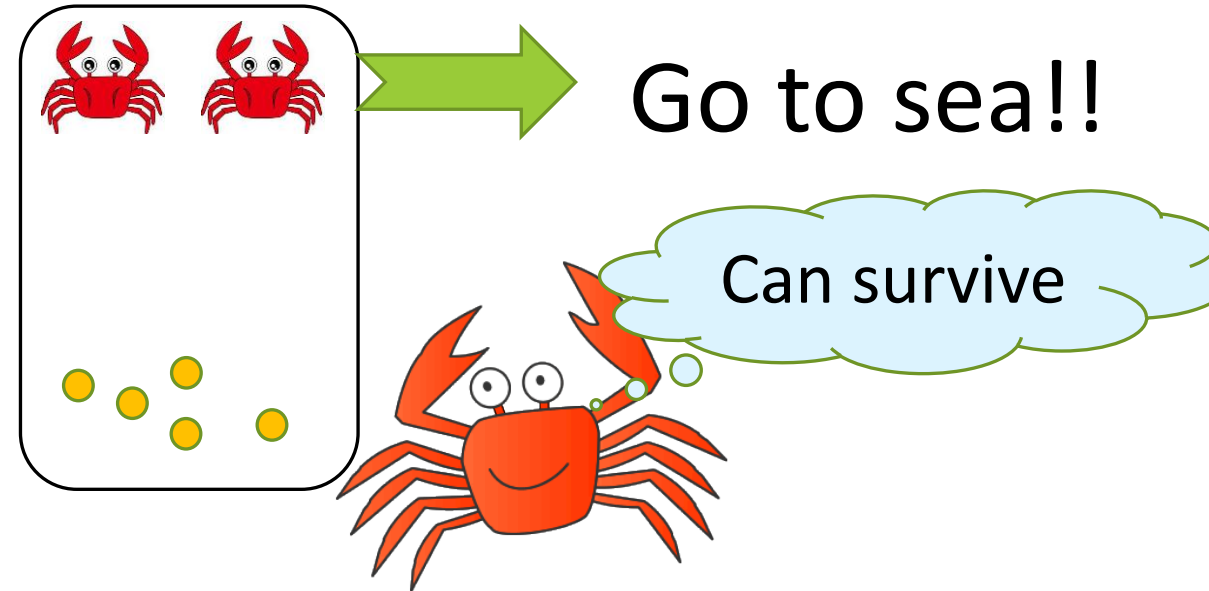

The king decided to  
solve this problem

# Crab Sustainability Project

---

Picking up crab's egg

# Making living of creatures

---

oyster

fish

# Our impression

---

We did a part of activities

We have to follow their marine protection activities

# Environmental preservation activities in TUMSAT

---

Opening lecture about sea environment for children

Children can learn

Not to repeat sea environment destruction

We work as a teacher

We can also learn

“ฉันทบุรี..เมืองแห่งความสุข  
สุขทุกวัน..ที่ฉันทบุรี  
สุขทุกนาที..ที่ดุโงกระเบน”

Thank you
