

A person wearing a wide-brimmed straw hat and a black long-sleeved shirt is seen from the back, holding a white plastic bag filled with a yellowish liquid. They are standing outdoors near a body of water, with lush green trees in the background. Another person in a white shirt is partially visible on the right. The scene appears to be a training exercise in a natural setting.

Do you know  
the difference?

## STUDY

### *For aquatic environment in the plastic bag*

- Net ( for shrimp)
- Separate 1 fish
- Medicine (depend on transport distance)
- Lower temperature(for metabolic inhibition)

→all for customer's trust

We tried thinking about  
why it had become this way ?

# Network

- Have many connections to the world  
→ find out fish suit to buyer's needs from world
- Make inroads into the world market  
→ Singapore is easy to trade (ex, low duty)
